with CKD

Easing the way towards better health, our specialized Renal Program under the direction of **Dr. John Depalma of Shore Renal Care PROMOTES INDEPENDENCE & QUALITY OF LIFE.**

OUR SERVICES:

- **Peritoneal Dialysis**
- **Nephrology Consults**
- **Nutritional Counseling**
- **Staff with Specialized Training**
- **Full-Time Nurse Practitioner**
- **Diabetic Management & Education**

Dr. John Depalma, DO is a prominent New Jersey nephrologist with Shore Renal Care. His team includes Dr. Eric Loman, DO; Dr. Shehryar Anjum, MD; and Nicole Ortiz, APN.

Dr. Depalma has received specialized training and conducted research in the areas of peritoneal dialysis, home hemodialysis, kidney transplantation, and ICU nephrology specifically dealing with continuous renal replacement therapy. He is affiliated with multiple area hospitals, including Ocean Medical Center, Community Medical Center and Hackensack Meridian Health Bayshore Community Hospital.

Our state-of-the art program, offering both **continuous ambulatory peritoneal dialysis (CAPD)** and **automated peritoneal dialysis (APD)**, minimizes the risk of infection and eliminates the inconvenience of transporting residents with complex medical needs outside the facility for treatment.
