

Dear Families & Friends,

Spring is in the air, and with it comes a sense of renewal felt throughout our community. As everything begins to blossom, so does the continued growth and energy here at Concord Healthcare & Rehabilitation Center.

I'm proud to share that we recently had a very successful survey with the New Jersey Department of Health, a testament to the dedication and excellence of our entire team.

In addition, Concord is proud to be recognized as an Age-Friendly Health System Participant. By aligning our care with

each resident's goals and preferences, ensuring safe and appropriate medication use, supporting cognitive health, and promoting safe mobility, we are advancing a more thoughtful, person-centered approach to care.

Thank you for being part of our community. We look forward to a wonderful season ahead.

JAY KRAMER, ADMINISTRATOR

Up close & personal with

Justine Samson

We are pleased to welcome Justine Samson, MSN, APRN, FNP-C, as our in-house Family Nurse Practitioner.

Justine brings more than ten years of hands-on nursing experience to her new role, having spent her career working in hospital and acute care environments with adult and geriatric populations.

Her most recent position was in the Medical ICU and Cardiac Care Unit at Jersey Shore University Medical Center, where she honed her skills in some of the most demanding and complex care settings in the region. Prior to that, she gained valuable experience in telemetry units at RWJ Hamilton and JSUMC.

This depth of acute care experience positions Justine exceptionally well to provide thoughtful, responsive, and medically informed care to our patients. Her clinical philosophy centers on listening closely, treating thoughtfully, and empowering patients to take an active role in their own health and recovery.

Outside of her professional life, Justine enjoys spending time with her husband, son, and their two dogs. She loves trips to the beach, as well as walks and bike rides – a reflection of the active, balanced lifestyle she encourages in her patients.

“I really enjoy getting to know my patients. The best part of being onsite is building those relationships day by day and being able to respond quickly when something changes.”

A Vascular Approach to Better Healing:

MEET DR. NIRMAN TULSYAN, MD, FACS, RPVI

At Concord Rehab, exceptional wound care is more than treatment. It's a coordinated, expert-driven approach designed to deliver better outcomes for every resident.

That's where Dr. Nirman Tulsyan of Heritage Wound Care comes in.

A vascular surgeon and wound care specialist, Dr. Tulsyan brings nearly two decades of experience treating complex arterial and venous conditions, with a focus on minimally invasive techniques and limb preservation. He completed his surgical training at Morristown Memorial Hospital and advanced fellowship training at the Cleveland Clinic, one of the nation's leading centers for vascular care.

Dr. Tulsyan rounds at Concord weekly, applying a “vascular-minded” approach that looks beyond the wound itself to address the underlying causes of delayed healing. He works closely with our nursing and clinical staff to ensure that wound care plans are proactive, responsive, and tailored to each resident's needs.

It's one more way Concord is raising the bar for wound care.

Dr. Nirman Tulsyan
Vascular Surgeon and
Wound Care Specialist

After a serious injury, Jan arrived requiring extensive care and support. Through dedicated treatment and expert rehabilitation she made a remarkable recovery, walking out of Concord stronger and in great shape.

“I FEEL I WAS VERY WELL TAKEN CARE OF. PHYSICAL THERAPY WAS SUPERB! I CAME IN UNABLE TO MOVE, AND AM LEAVING WALKING!”

– Jan Casey

Recreation Recap

We enjoyed a festive Easter which was marked by a special visit by the **Easter Bunny** who brought joy and excitement to everyone!

On **St. Patrick’s Day** our staff was decked out in green and full of festive spirit. Residents got a kick out of a lively performance by Patricia, sipped on shamrock shakes and enjoyed some Irish fun.

Everyone had a blast trying out our brand-new **“Pants Toss” game**, which came along with plenty of laughs and some friendly competition. Who knew tossing could be this entertaining?

Beads, music, masks, and lots of smiles...our **Mardi Gras celebration** was a hit!
